**Subject:** settlement

To Whom it May Concern:

I am opposed to the current Microsoft settlement. I believe the company should be more heavily regulated at the least. Ideally, it should be split into several competing entities.

I also think the government is doing its citizens a disservice by allowing Microsoft to remain intact, with little more than a proverbial slap on the wrist. I intend to fully articulate my displeasure at the ballot box this November.

Best wishes,

Christopher Elliott
